1. Executive Summary

DoubleGG (DLGG) is a decentralized social token built on BNB Smart Chain, designed to revolutionize the relationship between social media platforms and their users. While traditional social media companies generate billions in revenue from user-generated content, the creators and community members who drive this value receive nothing in return.

DoubleGG changes this paradigm by creating a social platform where every interaction, every post, and every engagement is rewarded with real \$DLGG tokens. Our mission is simple: give the value back to the people who create it.

Key Metric	Value
Token Name	DoubleGG
Token Symbol	DLGG
Blockchain	BNB Smart Chain (BEP-20)
Total Supply	100,000,000 DLGG (Fixed)
Buy/Sell Tax	0.25%
Launch Date	June 2026
DEX Listing	PancakeSwap V2

2. Introduction & Problem Statement

Social media has become one of the most powerful forces in modern society. Platforms like Instagram, TikTok, Twitter, and Facebook generate hundreds of billions of dollars in annual revenue — almost entirely from advertising built on top of user-generated content.

The fundamental problem is clear:

- Content creators generate all the value but receive little to none of the financial rewards.
- Users spend hours of their time engaging with platforms, receiving nothing in return.
- Platform algorithms control who sees what content, often suppressing creators.
- User data is monetized without consent or compensation.
- There is no incentive system that rewards genuine community engagement.

The rise of Web3 technology and blockchain presents an unprecedented opportunity to fix this broken system. DoubleGG is built on this premise: a social ecosystem where the community owns the value they create.

3. The DoubleGG Solution

DoubleGG is a community-first social token and platform that directly rewards users for their engagement and content creation. By integrating blockchain technology into a social experience, we create a transparent, fair, and rewarding ecosystem.

Core Principles

- Community First — Every decision prioritizes the community over corporate profits.
- Transparency — All transactions and token movements are publicly verifiable on the blockchain.
- Fair Rewards — Every user, regardless of follower count, can earn \$DLGG through genuine engagement.
- Decentralization — No single entity controls the platform or the token supply.
- Real Value — \$DLGG is a tradeable asset on PancakeSwap with real liquidity.

4. Platform & App Features

The DoubleGG platform is a social discovery and interaction application designed for the next generation of content creators and community builders. The app is currently in development and scheduled for beta launch in Q4 2026.

Platform Features

Social Feed

A dynamic content feed where users share posts, videos, and stories. Every interaction on the feed earns DLGG rewards.

Creator Tips

Users can tip their favorite creators directly in \$DLGG. No middleman, no platform cut.

Daily Reward Pools

Active users share daily \$DLGG reward pools proportional to their engagement score.

Community Challenges

Weekly challenges and competitions where top creators win bonus \$DLGG prizes.

Governance Voting

DLGG holders vote on platform features, reward rates, and future development directions.

Instant Withdrawals

Earned \$DLGG goes directly to your connected wallet. Trade it on PancakeSwap anytime.

Staking Integration

Stake your \$DLGG directly in the app to earn additional passive income rewards.

5. Token Economy (\$DLGG)

The \$DLGG token is the core utility and governance token of the DoubleGG ecosystem. It is deployed on BNB Smart Chain as a BEP-20 token with a fixed, immutable total supply.

Token Specifications

Property	Value
Token Name	DoubleGG
Symbol	DLGG
Standard	BEP-20 (BNB Smart Chain)
Total Supply	100,000,000 (Fixed Forever)
Mintable	No — Supply is permanently fixed
Decimals	18
Buy Tax	0.25%
Sell Tax	0.25%
Tax Wallet	Project Development & Marketing
Contract	0x8FB2EB5888a46C73264595732e868C2DDc9F5fB8

6. Token Distribution

The 100,000,000 DLGG tokens are distributed strategically to ensure long-term project sustainability, community growth, and healthy market liquidity.

Allocation	Amount	Percentage	Purpose
Liquidity Pool	20,000,000	20%	PancakeSwap DEX liquidity
Staking Rewards	10,000,000	10%	User staking incentives
App Development	15,000,000	15%	Platform & app building
Marketing & CEX	10,000,000	10%	Exchange listings & growth
Team & Reserve	45,000,000	45%	Long-term project reserve
TOTAL	100,000,000	100%	

7. Staking & Rewards

DoubleGG offers a built-in staking system that allows token holders to lock their \$DLGG and earn guaranteed rewards. The staking contract is deployed on BNB Smart Chain and operates fully on-chain with no intermediaries.

Staking Tiers

Lock Period	Reward Rate	Example (1,000 DLGG)	Unlock Date
7 Days	+2%	1,020 DLGG	7 days after stake
14 Days	+5%	1,050 DLGG	14 days after stake
30 Days	+10%	1,100 DLGG	30 days after stake
90 Days	+20%	1,200 DLGG	90 days after stake
120 Days	+30%	1,300 DLGG	120 days after stake

Staking Contract: 0x39A9C0b32257b12A99B1115C2553584Ee226417d

The staking reward pool contains 10,000,000 DLGG tokens. Rewards are locked in the smart contract and released automatically when the lock period expires. Users can stake and unstake directly from our website at doubleggtoken.github.io/DoubleGG/staking.html

8. Roadmap

Q2 2026 — LAUNCH ✓

- \$DLGG token deployed on BNB Smart Chain
- Contract verified on BscScan
- PancakeSwap V2 liquidity pool established
- DEXScreener listing
- Staking contract deployed with 10M DLGG reward pool
- Official website launched with Swap & Staking pages
- Twitter/X and Telegram community established
- CoinGecko and CoinMarketCap applications submitted

Q3 2026 — GROWTH

- CoinGecko and CoinMarketCap listings
- First centralized exchange (CEX) listings
- Influencer and creator partnership program
- Community expansion campaign
- Additional liquidity additions
- Security audit initiation

Q4 2026 — PLATFORM

- DoubleGG social app beta launch
- In-app \$DLGG earning system activation
- Content creator reward and tipping features
- Community challenge and competition system
- Staking feature integrated into mobile app
- Major CEX exchange listings

Q1 2027 — EXPANSION

- Full iOS and Android mobile app release
- International market expansion
- Strategic partnership announcements
- DAO governance system launch
- Community voting on platform features
- Cross-chain bridge exploration

9. Security & Audit

Security is a top priority for the DoubleGG project. The \$DLGG token contract and staking contract have been designed with security best practices in mind.

Security Features

- Open Source — Both contracts are fully verified and publicly viewable on BscScan.
- No Honeypot — Tokens can be freely bought and sold without restrictions.
- No Mint Function — Total supply is permanently fixed at 100,000,000 DLGG.
- No Blacklist — No mechanism to block user wallets from trading.
- ReentrancyGuard — Staking contract implements OpenZeppelin ReentrancyGuard protection.
- Ownable — Administrative functions are protected by ownership controls.
- Tax Modifiable: No — The 0.25% tax rate cannot be changed by anyone.
- Transfer Pausable: No — Trading cannot be paused or restricted.

A formal third-party security audit is planned for Q3 2026. The audit report will be publicly published on our website and GitHub repository upon completion.

Contract Addresses

Contract	Address
DLGG Token	0x8FB2EB5888a46C73264595732e868C2DDc9F5fB8
Staking Contract	0x39A9C0b32257b12A99B1115C2553584Ee226417d

10. Legal Disclaimer

This whitepaper is provided for informational purposes only and does not constitute financial, investment, legal, or tax advice. The information contained herein is subject to change without notice.

Cryptocurrency investments involve significant risk. The value of \$DLGG tokens may fluctuate dramatically and investors may lose all or part of their investment. Past performance is not indicative of future results.

\$DLGG is a utility and governance token. It is not intended to be a security, investment product, or financial instrument. Purchasers of \$DLGG should not expect profits based solely on the efforts of the DoubleGG team.

The DoubleGG platform and mobile application described in this whitepaper are in development. There is no guarantee that all features described will be implemented as described or within the timeframes indicated in the roadmap.

This whitepaper may not be distributed in jurisdictions where cryptocurrency activities are restricted or prohibited by law. It is the responsibility of each user to ensure compliance with applicable local laws and regulations.

By purchasing, holding, or using \$DLGG tokens, you acknowledge that you have read, understood, and accepted all risks associated with cryptocurrency investments.
